With a strong academic and practical interest in data, technology, and AI, I have experience analysing and interpreting data to support business decision-making. I bring hands-on skills in SQL (achieved 86% in a recent SQL examination), Power BI, and Python (92.5% average for the current advanced Python and Machine Learning module). I'm highly motivated to begin a career in analytics. I have a strong curiosity for emerging technologies, a structured problem-solving mindset, and a desire to gain real-world experience applying data-driven insights in a professional environment.

EXPERIENCE

Dublin City University | Business & Analytics Teaching Assistant *August 2026 – Present*

Support the delivery of Business and Analytics modules, assisting students with academic research, assignments, and data analysis. Facilitate tutorials and activities while providing guidance and feedback to help students develop their academic and analytical skills.

Puck Lane | Front of House *November 2025 – July 2026*

Worked part-time in a busy Café, providing friendly and efficient customer service while supporting both front-of-house and kitchen operations. Gained experience handling orders, assisting customers, and maintaining high standards of cleanliness and teamwork in a fast-paced environment.

Price Waterhouse Coopers | Internal Auditor Intern *September 2024 – August 2025*

Completed an internship in PwC on the Risk Assurance team. Experienced in assessing risk exposure, evaluating control effectiveness, and ensuring compliance with regulatory standards. Proactive and analytical, with strong skills in data analysis, problem-solving, and identifying process improvements. Confident communicator with experience in report writing, client interaction, and presenting findings, while thriving in collaborative, cross-functional teams under tight deadlines.

Epic Irish Emigration Museum | Retail Assistant *June 2020 - August 2024*

Skilled in delivering efficient customer service while driving sales through strong product knowledge and visual merchandising. Experienced in digital marketing engagement and technical operations, with a focus on training, teamwork, and effective communication to enhance customer satisfaction and business performance.

EDUCATION

Dublin City University | BA Business Studies *2022 – 2026*

Graduated with **Second-Class Honours (2:1)**, specialising in Business Analytics. Completed an 11-month internship during third year, gaining practical experience alongside academic study.
